NGS Full-length UDI Adapter Kit for Illumina, Set2 (Plate,97-192)

Cat.No.: HYD336

Product Description

NGS Truncated UDI Primer Kit for Illumina is an adapter kit specifically designed for library preparation on Illumina high-throughput sequencing platforms. The kit contains UDI adapters used for next-generation sequencing (NGS) library preparation.Each set contains 96 adapters, enabling the construction of up to 384 uniquely dual-indexed libraries. All reagents included in the kit have undergone strict quality control and functional validation to ensure the stability and reproducibility of library preparation to the greatest extent.

Components

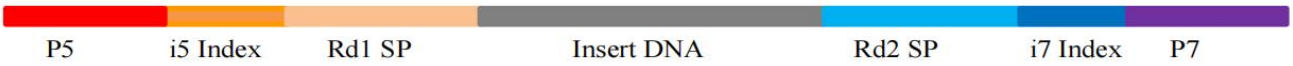

Cat.No.	Components	96×1 T	96×2 T
HYD335	UDI Adapter 001-096	5 μL each	10 μL each
HYD336	UDI Adapter 097-192	5 μL each	10 μL each
HYD337	UDI Adapter 193-288	5 μL each	10 μL each
HYD338	UDI Adapter 289-384	5 μL each	10 μL each

Storage

Store at -15℃~ -25℃ for 2 years.

Notes

1. The concentration of the UDI adapters in this kit is 10 μM. The amount of adapter used for each library preparation should be adjusted according to the requirements of the library preparation kit being used.
2. Do not heat the adapters. Allow them to dissolve slowly at room temperature. The laboratory temperature is recommended to be maintained at 20–25°C. Avoid repeated freeze–thaw cycles. It is recommended to aliquot the adapters for storage, and they may be stored at 4°C for short-term use.
3. The structure of the DNA library constructed using the NGS Full-length UDI Adapter Kit for Illumina is shown below.

4. For your safety and health, please wear a lab coat and disposable gloves when performing the experiment.
5. This product is for research use only.

Sequence information

1. i5 Index for Illumina

5′-AATGATACGGCGACCACCGAGATCTACAC[i5Index]ACACTCTTTCCCTACACGACGCTCTTCCGATC*T-3′

2. i7 Index for Illumina

5′-/5Phos/GATCGGAAGAGCACACGTCTGAACTCCAGTCAC[i7 Index]ATCTCGTATGCCGTCTTCTGCTT*G-3′

The notation [i5 Index] denotes an 8-bp i5 index sequence, and [i7 Index] denotes an 8-bp i7 index sequence.

3. [i5 Index] 8 bp i5 Index sequence，[i7 Index]8 bp i7 Index sequence

4. The corresponding locations of each primer in 96-well plate are shown.The corresponding index information of each board position can be obtained by directly contacting Hyasen sales.
